Side Lift Up Ottoman not available in 2'6"

MATTRESS FIRMNESS

1

SOFT/MEDIUM

If you sleep on your side, a soft mattress is ideal as it lets your shoulders and hips sink while supporting the weight of the rest of your body.

2

MEDIUM

If you sleep on your side, but prefer the feel of a firmer mattress, choose medium support

3

MEDIUM/FIRM

Do you change position when you sleep, from your side to your back? Then a medium/firm mattress may be the best option.

4

FIRM

If you prefer to sleep on your back or on your tummy, a firm mattress will give you just the right amount of support.

5

EXTRA FIRM

Extra firm mattresses offer a very firm level of support. Orthopaedic mattresses or fully encapsulated mattresses are ideal.

6

ULTRA FIRM

Ultra firm mattress provides an extremely firm level of support, delivering unparalleled stability.
